

2013 Summer Company Program

The Province of Ontario Summer Company Program is offered to students ages 15 – 29 and administered through the Brantford-Brant Business Resource Centre. The selected students develop a business plan and learn how to operate their business under the guidance of a community mentorship group throughout the summer. A government grant of up to \$1,500 is awarded to students to help with startup costs and an additional \$1,500 is awarded to the students upon completion of the program. This is an amazing opportunity for our youth entrepreneurs!
